EXPERIENCE

CLEVER LADDER, LLC   *January 2013 - Present*
SENIOR FULL STACK WEB DEVELOPER

• Design and develop custom handcrafted websites for small to large scale organizations, mostly using WordPress CMS.
• Establish a fluid line of communication and collaboration to reach clients' goals and ensure a timely delivery of product.
• Carry out quality assurance tests to discover errors.
• Achieve greater web presence for clientele through the use of SEO.

JSL MARKETING & WEB DESIGN   *December 2022 - September 2023*
SENIOR FULL STACK WEB DEVELOPER

• Spearheaded the development of multiple high-quality websites, leveraging custom WordPress themes to deliver tailored, scalable solutions.
• Enhanced application performance through strategic code refactoring, showcasing my expertise in optimizing existing systems.
• Led code reviews, ensuring adherence to best practices and fostering a culture of excellence in development.

U.Group   *October 2019 - July 2021*
Web Developer

• My main role at U.Group is working on a dedicated contract that serves the U.S. State Department (state.gov).
• Building feature rich components based on client requirements.
• Developing migration scripts to update data from new development.
• WordPress Gutenberg Conversion.
• Work in collaboration in a SCRUM/Agile oriented environment.

CHRISTIAN COPYRIGHT LICENSING INT   *June 2018 - March 2019*
FRONT-END DEVELOPER

• Built and maintained a variety of WordPress sites on existing platform
• Developed and maintained custom plugins and themes.
• Worked closely with internal stakeholders to complete projects.
• Ensure high performance and availability.
• Noteable project: https://screenvue.com/
    - Designed using company brand guidelines
    - Developed with Next.js and Contentful as CMS

MATHESON MEDIA   *July 2017 - May 2018*
LEAD DEVELOPER

• Collaborate with designers to create clean interfaces and simple, intuitive interactions and experiences.
• Optimize usability to maximum speed and scalability using browser developer tools.
• Participate in client meetings to ensure development needs met the scope of the project.
